

Holiday Wall Hanging

Try this DIY craft after the class.

Supplies needed:

8" craft mirror
Small wood dowel cut to 9"
Yarn - a thicker yarn works best
Holiday trim accessories - ribbon, pine sprigs, pine cones, bells, mini garlands
Hot glue gun & glue sticks
Floral wire & snips
Sawtooth hanger

Instructions:

- 1.** Cut yarn double the length you want them to hang.
This yarn was cut into 36" long pieces to double up.
- 2.** Starting with one doubled up piece, fold it in half.
Place the loop under your dowel and pull the loose ends over the dowel and through the loop to create the knot. Continue this across the dowel until only 1/2" on each end is showing.
- 3.** Using hot glue, attach the yarn dowel on to the mirror.
Keep half of the mirror showing.
- 4.** Create a cluster of pine sprigs using floral wire and hot glue.
On one end of the dowel, continue to layer pine cones and embellishments with hot glue. Finish off with a bow also secured with hot glue.
- 5.** Once the glue has cooled, flip the mirror over.
Apply 2 large dabs of hot glue to attach the sawtooth hanger.
- 6.** Let cool & hang!
